

# *APC Waiver for International Authors!*

*Journal of International Nursing Research (JINR) is pleased to announce that for a limited time, it is waiving the Article Processing Charge (APC) for manuscripts whose FIRST AUTHOR is affiliated with an institution outside Japan.*

This special initiative reflects our commitment to supporting and expanding contributions from the global research community, making it easier than ever for international authors to share their valuable work with a worldwide audience.

This waiver applies to manuscripts submitted on or before December 31, 2028.

As this opportunity is available for a limited time only, we warmly encourage international researchers to take advantage of this offer and submit their work to JINR.

**We look forward to receiving your work!**
